

Perfect Spell

Unleash Your Inner Sorcerer

Strategically combine cards to build powerful spells, outwit your rivals, and claim the title of the ultimate master of the arcane. Can you outshine your fellow apprentices and become the best sorcerer in Perfect Spell?

Perfect Spell is a very light card game where the objective is to build four spells (stacks of cards), each containing cards adding up to exactly 10.

It's surprising how easy it is to learn and play, yet every turn players constantly have to adapt to make best use of the cards at hand.

The game can be played with children who are able to add numbers to a sum of 10 - making it perfect for educational use also.

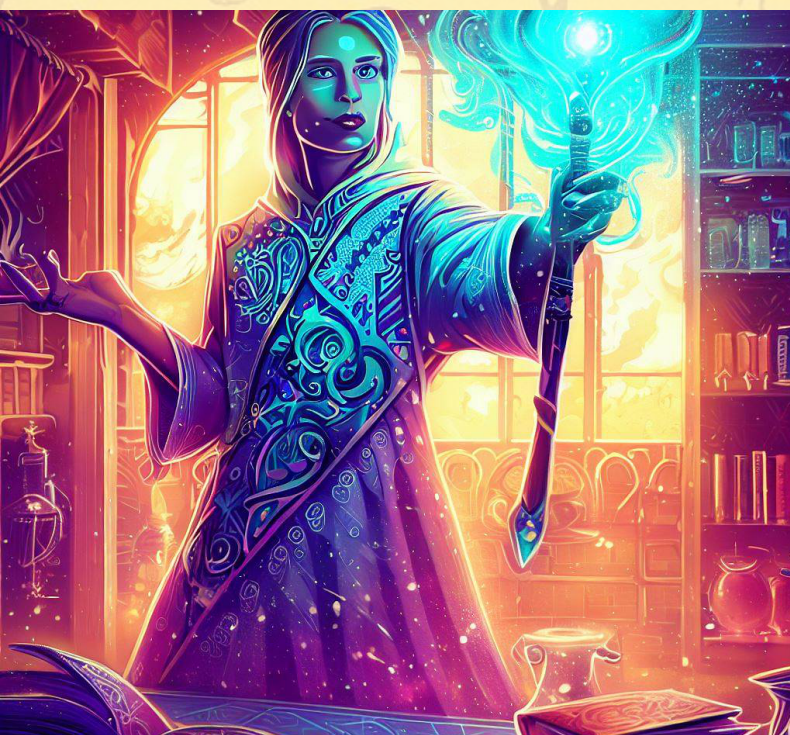

COMPONENTS: 100 cards

Theme

The current theme is set in a sorcerer's world, but it could easily have artwork that would appeal to both children and adults.

The game rules are as simple as this:

- In your turn always play three cards:
 1. Play one card to one of your sets
 2. Play one card on an opponent's set
 3. Discard the final card
- Draw 3 new cards at the end of your turn.
- Build a set where the matching color cards add up to exactly 10 to score a point.
- Add cards to your opponent's sets to make the sets go over 10 - making your opponent discard the set and start over.
- Get 4 points to win the game.
