

2-6 players 20-45 min Age 10+ Casual and fun

## Take the role of a Greek god, and manipulate the elements to propel your champion to victory in a race to Olympus

2-6 players take the roles of competing gods, vying to overcome their rivals by influencing the fate of their champion.

A triple-layered, rotating board allows for strategic and exciting gameplay, both in advancing your champion and obstructing the progress of others.

Players use their godly powers to play elemental cards, allowing them to move their champions, build bridges to higher levels, rotate the arena, and block the actions of other gods.

Meanwhile, the actions of other gods (represented by their own deck of cards) will affect all of the champions, forcing constant rethinking and adaptation.

Playful Gods is a fast, fun family game that offers room for strategic thought. Players will need to make tough choices every turn between pushing towards victory or slowing their rivals.

- Fun rotating 3-layered playing arena
- Learn to play in 5 minutes
- Make strategic decisions every turn
- Pick the ideal moment to foil your opponents' plans

- Components:
